

Engelsk

Would you like to improve your ability to read, write, and speak Danish? Then FVU classes might be right for you.

Do you need a boost so you can support your child at school and manage better in Danish?

You will improve your Danish skills so you can follow your children's schooling and help with homework and academic challenges.

The teaching is tailored to your needs and designed to be relevant in your everyday life.

FVU Start Danish is for those who do not have Danish as their mother tongue and who wish to improve their ability to speak, read, write, and understand Danish.

You must have some basic knowledge of Danish to join FVU Start Danish.

Engelsk

Do you need a boost to support your child in school?

Preparatory Adult Education/Forberedende VoksenUndervisning (FVU) is free and tailored to your needs

You may find it difficult to keep up with your child's schoolwork. If you want to be able to support your child and talk about homework and challenges in different subjects, you can join our Preparatory Adult Education programme.

If you struggle with reading, writing or spelling – or if you would like an assessment for dyslexia – we are here to help.

FVU START DANISH

FVU Start is for those, who do not have Danish as their first language and want to improve their Danish speaking, reading, writing and understanding skills. You need to have little Danish skills to join FVU Start.

FVU DANSK/DANISH

You will improve your reading, writing and spelling skills and learn different reading strategies. You will gain tools for writing clear texts, strengthen your grammar and expand your vocabulary.

FVU MATEMATIK/MATH

You will improve your numeracy skills and work with basic mathematical concepts and calculation methods. You will be introduced to different learning approaches and get to know tools such as Excel.

FVU DIGITAL - IT

You will learn to use basic digital tools and become more confident in using your computer, phone, tablet or iPad. We also work with digital safety and the protection of personal data.

FVU ENGELSK/ENGLISH

We work with both spoken and written communication and explore English as a cultural subject – a doorway to other cultures and a window to the world.

DYSLEXIA

You will work with assistive IT tools – reading and writing technologies – that can support you in your daily life. The teaching takes place in small groups of up to six participants.
